

ESSUGGEST Community Guidelines

Standards of Conduct for a Safe and Constructive Platform

1. Purpose of These Guidelines

The effectiveness of ESSUGGEST depends on students feeling secure in expressing themselves candidly, and on the University's ability to act upon the content it receives. These guidelines are established to safeguard both objectives, and are not intended to discourage participation.

2. Standards of Respect

Disagreement is permitted; personal attacks are not.

- Harassment, threats, and personal attacks directed at students, faculty, or staff — whether named or unnamed — are prohibited.
- Hate speech or content targeting an individual's identity is prohibited.
- Users are expected to critique ideas and policies rather than individuals.

3. Maintaining Constructive Discourse

ESSUGGEST exists to surface ideas that the University is able to act upon.

- Users should articulate the problem clearly and, where possible, propose a solution.
- Posts should remain within the scope of the selected tag or category.
- Duplicate posts should be avoided; users are encouraged to upvote or comment on an existing suggestion rather than repost it.

4. Anonymity as a Privilege

The option to post anonymously is intended to facilitate honest discussion of sensitive matters, and not to permit statements that would otherwise be considered unacceptable. Anonymous posts are held to the same standard as posts made under one's name, and repeated misuse of this privilege may result in its revocation.

5. Prohibited Content

- Spam, advertising, or unsolicited promotional material.
- Disclosure of another student's or staff member's private information without consent.
- Deliberate presentation of false claims as fact (misinformation).
- Content that is unlawful, sexually explicit, or that promotes self-harm or violence.

6. Consequences of Violations

Violations are evaluated on a case-by-case basis. Depending on the severity of the infraction, consequences may range from content removal and a formal warning, to temporary restrictions on posting privileges, to suspension of the user's account in cases of repeated or serious violations.

For further information regarding the reporting procedure, please refer to the Reporting Handbook.
