

ESSUGGEST Data Privacy Policy

Collection, Use, and Protection of Personal Data under the Data Privacy Act of 2012 (RA 10173)

1. Commitment to Data Privacy

ESSUGGEST is committed to protecting the personal data of ESSU students in accordance with the Data Privacy Act of 2012 (Republic Act No. 10173), its Implementing Rules and Regulations, and the issuances of the National Privacy Commission.

2. Information Collected

- The email address and account credentials, used for account creation and login via Firebase Authentication.
- The content of suggestions, poll votes, comments, and any display name attached to a post.
- Basic usage data, including timestamps associated with posts, votes, and comments.

3. Use of Information

- To verify user accounts and enable secure login.
- To associate submissions with the corresponding account, allowing users to track status updates on their own suggestions.
- To moderate content in accordance with the Community Guidelines.
- To compile aggregate, non-identifying reports for ESSU offices reviewing student feedback.

4. Anonymous Posting

Posts are submitted anonymously by default, concealing the associated display name from other students; a user may toggle this setting off to have a given post appear under their name instead. Anonymity, in this context, applies to other users rather than to the system itself; the account remains internally linked to the post so that moderators may act on violations of the Community Guidelines or Reporting Handbook where necessary.

5. Data Storage and Access

Data is stored using Firebase Authentication and Cloud Firestore, hosted on Google Cloud infrastructure. Access is restricted through Firestore Security Rules, such that only the authenticated account owner may read or write their own data, and only authorized moderators may access information necessary to review reported content.

| 6. Rights of the Data Subject

Under RA 10173, data subjects are entitled to the right to be informed, to access their personal data, to request correction or erasure, to object to processing, and to lodge a complaint with the National Privacy Commission (privacy.gov.ph).

| 7. Inquiries and Requests

Questions or requests concerning data privacy may be directed to essuggest@gmail.com.
