ESSUGGEST User Guide

A quick walkthrough of everything you can do on ESSUGGEST, for students of Eastern Samar State University

What is ESSUGGEST?

ESSUGGEST is *ESSU's official online suggestion box*. It replaces the old paper box with a platform where suggestions are visible, up votable and get real answers from the university.

There are two ways to take part: posting or voting on ***Suggestions*** and casting your vote on official ***Polls***.

Creating an Account

Sign up using your official ESSU email address. You'll receive a verification link, click it before logging in for the first time.

1. Go to the **Create Account** page and fill in your details.
2. Check your inbox for the verification email.
3. Verify your email, then log in with your ESSU credentials.

Posting a Suggestion

Once logged in, you can share an idea for ESSU to consider. Every suggestion can be tagged by category so it's easier for others and the university to find.

- Write your suggestion clearly and keep it constructive.
- Choose a relevant tag/category.
- Decide whether to post under your name or anonymously.
- Submit it then your post is now visible to the student body.

Anonymity

ESSUGGEST uses a hybrid anonymity model: you choose per post, whether your name is shown. Anonymous posts still go through the same moderation and community guidelines as named ones; you may see the Community Guidelines document for what that means in practice.

Upvoting and Commenting

Other students can upvote suggestions they support and leave comments in a threaded discussion underneath each post. Suggestions with the most support tend to rise to the top of the feed.

Voting on Polls

Polls are questions ESSU puts directly to the student body. Each poll allows one vote per student and stays open for a 24-hour voting window. Results update live as votes come in, and the poll stays visible after voting closes so everyone can see the outcome.

Tracking Responses

Suggestions receive a status update once ESSU reviews them (*for example: Under Review, Acknowledged, Implemented or Declined with a reason*). You can check back on your own posts at any time to see if anything has changed.

Getting Help

If something isn't working, or you have a question this guide didn't answer, check the FAQ page or reach out at **essuggest@gmail.com**.
